</thead>
<tbody>
<tr>
<td>8:15</td>
<td>Registration Desk Open (until 13:30)</td>
</tr>
<tr>
<td>08:20 – 08:30</td>
<td>Introduction and Welcome</td>
</tr>
<tr>
<td>08:30 – 10:00</td>
<td>Symposium 1 - The development of antisocial behaviour into adulthood: Phenotypic manifestations, genetics, and brain function</td>
</tr>
<tr>
<td></td>
<td>Chair – Jeffrey Burke (University of Pittsburgh)</td>
</tr>
<tr>
<td>1.</td>
<td>The neurobiology of stable antisocial behaviour: A review of current knowledge</td>
</tr>
<tr>
<td></td>
<td>Sheilagh Hodgins (King’s College), Stéphane De Brito, &amp; Sarah Gregory</td>
</tr>
<tr>
<td>2.</td>
<td>Characterizing the phenotypic manifestation of antisocial behavior in adulthood</td>
</tr>
<tr>
<td></td>
<td>Jeffrey D. Burke (University of Pittsburgh), Stephanie D. Stepp, &amp; Rolf Loeber</td>
</tr>
<tr>
<td>3.</td>
<td>Sub-typing early adult antisocial behaviour using callous and unemotional traits: A genetically informed approach</td>
</tr>
<tr>
<td></td>
<td>Richard Rowe(King’s College), Fruhling Rijsdijk, Barbara Maughan, Alice Gregory, &amp; Thalia C. Eley</td>
</tr>
<tr>
<td>4.</td>
<td>Neural processing of threat and distress in men with chronic and remitting early-onset antisocial behavior</td>
</tr>
<tr>
<td></td>
<td>Dustin Pardini (University of Pittsburgh), Rebecca McNamee, Amy Byrd, &amp; Julianna Priola</td>
</tr>
<tr>
<td>10:00 – 10:30</td>
<td>Coffee Break</td>
</tr>
<tr>
<td>Time</td>
<td>Session</td>
</tr>
<tr>
<td>--------------</td>
<td>-------------------------------------------------------------------------</td>
</tr>
<tr>
<td>10:30 – 12:00</td>
<td><strong>DUAL TRACK 1</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Symposium 2 - Developmental trajectories of conduct problems: Advancing methods and extending findings</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Chair – Barbara Maughan (King’s College)</strong></td>
</tr>
</tbody>
</table>
| 5.           | Adolescent onset antisocial behavior: Individual characteristics in childhood and adolescence  
                **Barbara Maughan (King’s College), Bonamy R. Oliver, Tina Kretschmer & Edward D Barker** |
| 6.           | Co-occurring problems of early onset persistent, childhood limited, and adolescent onset conduct problem youth  
                **Edward D. Barker (University of Alabama), Bonamy R. Oliver, and Barbara Maughan** |
| 7.           | Adolescent antisocial behaviour: Relationships with parents and peers from late childhood through adolescence  
                **Tina Kretschmer (King’s College), Bonamy R. Oliver, Edward D Barker & Barbara Maughan** |
|              | Discussant: **Andrian Angold (Duke University)**                       |
|              | **Symposium 3 – The development of obesity, suicide behaviours and HIV risk: Public health priorities and opportunities for intervention** |
| 8.           | The development of severe obesity in urban adolescent girls and implications for mental health  
                **Kathleen McTigue (University of Pittsburgh), Stephanie Stepp, Alison Hipwell, Rolf Loeber & Lew Kuller** |
| 9.           | Suicidal behaviors and psychopathology among adolescent girls who engage in nonsuicidal self-injury  
                **Stephanie Stepp (University of Pittsburgh), Alison Hipwell, Kate Keenan, Tammy Chung, Magda Stouthamer-Loeber and Rolf Loeber** |
| 10.          | Impulsivity, substance use and sexual risk-taking among girls: Differential effects by race  
                **Alison Hipwell (University of Pittsburgh), Stephanie Stepp, Tammy Chung, Kate Keenan, Swathi Hemachandra and Rolf Loeber** |
| 11.          | The role of social support in promoting healthy adult functioning among adolescents with suicidal ideation: A longitudinal community-based study  
                **Angela D. Paradis (Harvard University), Helen Z. Reinherz, Rose M. Giacosa** |
| 12:00 – 13:30| **Lunch**                                                               |
| 13:30 – 14:30| **KEY NOTE ADDRESS II: Rolf Loeber, University of Pittsburgh and the Free University of Amsterdam** |
|              | **Advances, barriers, and solutions to life-course developmental typologies of disruptive and delinquent behavior** |
**14:30 – 16:00**  
**Room:** Hospitalité  
**Symposium 4 – Early Onset: Does it matter?**  
Chair – Jane Costello (Duke University)  

12. Long-term effects of early puberty  
*William Copeland (Duke University)*  

13. Specifying criminogenic strains: Stress dynamics and conduct disorder trajectories  
*Holly Foster (Texas A&M University)*  

14. The course of anxiety disorders from childhood to age 26  
*Andrian Angold (Duke University)*  

15. "He'll come to no good": Predictions from early conduct disorder to later drug abuse  
*Jane Costello (Duke University)*

**16:00 – 16:30**  
**Coffee Break**

**16:30– 18:00**  
**Room:** Hospitalité  
**Symposium 5 – Childhood victimization and mental health problems: Timing recurrence and biological mechanisms**  
Chair – Louise Arsenault (King’s College)  

16. Effects of maltreatment chronicity and developmental timing on children's behavior and cognitive abilities  
*Sara Jaffee (King’s College)*  

17. The serotonin transporter gene moderates the development of emotional problems among children following bullying victimization  
*Karen Sugden (Duke University)*  

18. Physiological responses to stress in children exposed to early adversity: A study of discordant identical twin pairs  
*Isabelle Ouellet-Morin (King’s College)*  

19. Childhood trauma and children's emerging psychotic symptoms: A genetically sensitive longitudinal cohort study  
*Louise Arsenault (King’s College)*

**18:00- 19:30**  
**COCKTAIL: Room Salon des Arts**

**SATURDAY OCTOBER 16, 2010**

**8:15**  
Registration Desk Open (until 13:30)

**8:30 – 10:00**  
**Room:** Hospitalité  
**Symposium 6 – Prenatal risk for early vulnerability to psychopathology**  
Chair – Jonathan Hill (University of Manchester)  

20. Intergenerational transmission of irritability between mother and infant  
*K. Hudson (Cardiff University), S. van Goozen, G. Harold, A. Thapar, I. Goodyer, D.F Hay, & the CCDS Team*
21. Prenatal maternal cortisol and infant irritability at 5 weeks  
*Andrew Pickles (King’s College), H. Sharp, J. Hill, K. Marks, K. O’Donnell & V. Glover*

22. Mother's antisocial history and exposure to antenatal depression predict early signs of aggression in infancy  
*Dale F. Hay (Cardiff University), S. van Goozen, A. Thapar, G. Harold, I. Goodyer, & the CCDS Team*

23. Prenatal depression, anxiety and cortisol, and vagal tone at 6 months  
*J. Hill (University of Manchester), H. Sharp, F. Tibu, K. Marshall & A. Pickles*

<tbody>
<tr>
<td>10:00 – 10:30</td>
<td><strong>Coffee Break</strong></td>
</tr>
<tr>
<td>10:30 – 12:00</td>
<td><strong>DUAL TRACK 2</strong></td>
</tr>
<tr>
<td>Room:</td>
<td><strong>Symposium 7 – Pathways to antisocial behaviours through five decades of life</strong></td>
</tr>
<tr>
<td>Room:</td>
<td><strong>Chair – Sheilah Hodgins (King’s College)</strong></td>
</tr>
<tr>
<td></td>
<td><strong>24. Transactional links among gambling, substance use, theft, and violence from mid-adolescence to young adulthood: The role of common risk factors</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Brigitte Wanner (Universite de Montreal), Frank Vitaro, René Carbonneau, &amp; Richard E. Tremblay</strong></td>
</tr>
<tr>
<td></td>
<td><strong>25. Trajectories of resilience over 25 years of individuals who as adolescents consulted for substance misuse and a matched comparison group</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Peter Larm (Universite de Montreal) &amp; Sheilagh Hodgins</strong></td>
</tr>
<tr>
<td></td>
<td><strong>26. Effects of parental incarceration on boys in the Pittsburgh Youth Study</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Joseph Murray (University of Cambridge) &amp; Rolf Loeber</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Discussant: Sheilagh Hodgins</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Symposium 8 - The development of bullying and victimization in childhood and adolescence: A new look at contextual and individual level risks</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Chair – Edward Barker (University of Alabama)</strong></td>
</tr>
<tr>
<td></td>
<td><strong>27. Gene/environment interactions in processes linked to the effects of peer relations</strong></td>
</tr>
<tr>
<td></td>
<td><strong>W. M. Bukowski (Concordia University), R. M. Brengden, F. Vitaro, J. Santo, B. Hoza, C. Bagwell, R. Adams</strong></td>
</tr>
<tr>
<td></td>
<td><strong>28. Prosocial group norms: Do they protect aggressive children from later violent delinquency?</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Frank Vitaro (University of Montreal) &amp; Valérie Girard</strong></td>
</tr>
<tr>
<td></td>
<td><strong>29. Links between personal victimization experiences, classroom levels of peer victimization, and depression symptoms: A genetically informed study</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Mara Brendgen, (UQAM) &amp; Michel Boivin</strong></td>
</tr>
<tr>
<td></td>
<td><strong>30. Impulsivity and neighborhood risk as predictors of affiliation with deviant peers, bullying and criminal and peer victimization</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Edward D. Barker (University of Alabama) &amp; Barbara Maughan</strong></td>
</tr>
<tr>
<td>12:00 – 13:30</td>
<td>Lunch</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
</tr>
</tbody>
</table>
| 13:30 – 15:30 | DUAL TRACK 3  
Symposium 9 – Externalizing problems and substance abuse  
Chair – Patricia Brennan (Emory University) |
| 13:30 – 13:45 | Pubertal development is related to substance use changes across adolescence after control for chronological age and executive function  
| 13:45 – 14:00 | Long-term effects of a personality-targeted intervention to reduce alcohol use in adolescents  
Patricia Conrod (King’s College) and CHU Ste-Justine (University of Montreal) |
| 14:00 – 14:15 | Timing of adolescent smoking, drinking, and marijuana use initiation as a function of neighborhood quality: A survival analysis approach  
Jasmina Burdzovic Andreas (Brown University) & Malcolm W. Watson |
| 14:15 – 14:30 | The relationship between substance use and HIV-risk behaviors viewed through the lens of epidemiological and intervention studies  
Hyman Hops (Oregon Research Institute), Timothy J. Ozechowski, Charles W. Turner, and Holly B. Waldron |
| 14:30 – 14:45 | Stress, cortisol, and externalizing problems in adolescent males: An examination in the context of multisystemic therapy  
Patricia Brennan (Emory University), Julia Schechter, Philippe Cunningham, Sharon Foster, Elizabeth Whitmore |
| Room: Hospitalité |  |
| 13:30 – 15:30 |  |
| 13:30 – 15:30 | Rapid communications - 7 speakers  
Chair – Mark Ellenbogen (Concordia University) |
| 13:30 – 13:45 | Long term and sex-specific effects of adversities from conception to adolescence on adolescents' cortisol stress responses. The TRAILS study  
Tineke Oldehinkel (University of Groningen) |
| 13:45 – 14:00 | The influence of maternal depression measured longitudinally on emotion processing in preschool children  
Eszter Székely (Erasmus Medical Center, Netherlands) |
| 14:00 – 14:15 | Strategies and challenges in the longitudinal study of adolescent comorbidity  
Ann Vander Stoep (University of Washington) |
| 14:15 – 14:30 | Prospective associations between quantity and quality of early childhood television exposure and middle childhood well being  
Linda Pagani (University of Montreal) |
| 14:30 – 14:45 | Predictors of posttraumatic stress disorder in an Australian community sample of young people  
Robyne Le Broque (University of Queensland) |
| Room: Argenteuil |  |
| 13:30 – 13:45 |  |
| 13:30 – 15:30 |  |
| 13:30 – 15:30 |  |
| 13:30 – 15:30 |  |
| 14:45 – 15:00 | 42. A successful transition to adulthood: Adolescents’ financial status and well-being trajectories  
Mette Ranta (University of Jyvaskyla, Finland) |
| --- | --- |
| 15:00 – 15:15 | 43. Is narcissistic personality disorder taxonic? A taxometric analysis of narcissistic personality disorder  
Henian Chen (Winthrop University Hospital) |
| 15:30 – 16:00 | Coffee Break |
| 16:00 – 17:30 | Symposium 10 – Prospective lifespan and intergenerational examinations of the predictors of mental health, physical health and death  
Chair – Paul D. Hastings (University of California) |
| 16:00 – 17:30 | Room:  
Hospitalité |
| 16:00 – 17:30 | 44. Measures of aggression from primary school predict adult well-being more negatively than measures made during early adolescence  
William M. Bukowski (Concordia University), Jessica Grenier, Frank Vitaro |
| 16:00 – 17:30 | 45. Mothers’ childhood aggression and withdrawal as predictors of offspring health: A 30-year prospective study  
Lisa A. Serbin (Concordia University), Michele Hubert, Dale M. Stack, Paul D. Hastings, Robyn Tamblyn, Michal Abrahamowicz, Jane Ledingham, Alex E. Schwartzman |
| 16:00 – 17:30 | 46. Schizophrenia and psychiatric status across three generations: A prospective study  
Alex E. Schwartzman (Concordia University), Jane Ledingham, Lisa A. Serbin, Dale M. Stack, Paul D. Hastings, Sheilagh Hodgins, Robyn Tamblyn, Michal Abrahamowicz |
| 16:00 – 17:30 | 47. Predicting the final developmental outcome: A prospective longitudinal examination of contextual, parental and personal predictors of early mortality  
Paul D. Hastings (University of California at Davis), Alex E. Schwartzman, Lisa A. Serbin, Dale M. Stack, Robyn Tamblyn, Michal Abrahamowicz, Jane Ledingham |
| 08:30 – 10:00 | Symposium 11 - Adult outcomes of child maltreatment and partner violence: Prospective studies of psychopathology and family processes  
Chair – Miriam Ehrensaft (Columbia University) |
| 08:30 – 10:00 | Room:  
Hospitalité |
| 08:30 – 10:00 | 48. Growth in externalizing and internalizing in early childhood: Intergenerational models  
Deborah M. Capaldi (University of Oregon), Katherine C. Pears, & David C. R. Kerr |
| 08:30 – 10:00 | 49. A prospective study of associations between childhood maltreatment and substance use in females with delinquency histories  
Leslie D. Leve (University of Oregon), Gordon T. Harold, & Patricia Chamberlain |
| 08:30 – 10:00 | 50. Parenting behaviors as an outcome of childhood abuse: Intergenerational models of risk  
Miriam K. Ehrensaft (Columbia University), & Patricia A. Cohen  
Discussant: Patricia Cohen (Columbia University) |

| 10:30 – 12:30| **Symposium 12 – Stress, adversity and risk for depression: From cohort effects to neurobiological risk**  
Chair – Mark Ellenbogen (Concordia University) |  
51. The interaction between BDNF, 5-HTTLPR and childhood adversities on depression scores could not be replicated in the TRAILS study  
*Johan Ormel (University of Groningen), Esther Nederhof, Esther M.C. Bouma, Albertine J. Oldehinkel*  
52. Maternal depression and children’s vulnerability to symptoms of depression and anxiety (DAS): Can non-maternal care (NMC) minimise the negative effects?  
*Catherine M. Herba (University of Montreal), Chantal Mongeau, Xuecheng Liu, Michel Boivin, Richard E. Tremblay, Sylvana M. Côté*  
53. Neural correlates of emotional regulation in a high risk group for depression: a longitudinal study  
*Sarah L. Halligan (University of Reading, UK), Christina Moutsiana, Tom Johnstone, Lynne Murray, Peter J. Cooper and Pasco Fearon*  
54. Proximal life events and mid-life depressive and anxiety disorders: the moderating role of childhood adversity and childhood psychopathology  
*Charlotte Clark (University of London)*  
55. Prospective associations between MDMA / methamphetamine use and depressive symptoms in high school students  
*Frédéric N. Brière (University of Montreal) Jean-Sébastien Fallu, Michel Janosz, Linda S. Pagani*  
56. Depressive symptoms over the life-course in the Belgian population: Disentangling age and cohort effects  
*Marie-Christine Bnault (University of Montreal), Bart Meuleman, Piet Bracke* |
| 12:30        | **END OF MEETING**                                                                |                                                                                  |
CONFERENCE OF THE LIFE HISTORY RESEARCH SOCIETY

POSTERS

1. Personality of parents with bipolar disorder and interpersonal functioning among their offspring: A prospective 10-year study
   Caroline Ostiguy (Concordia University), Mark Ellenbogen, & Sheilagh Hodgins

2. Does early maternal socialization practices relate to later empathic responding in children?
   Alessandra Rivizzigno (UQAM), Brittany Scott, Jacob Nuselovici, & Paul D. Hastings

3. Effects of prenatal maternal stress on cognitive, behavioural, and physical outcomes across childhood: Project Ice Storm
   David P. Laplante (McGill University), Alain Brunet, Peter L. Hurd, Deborah J. Walder, Arnaud Charil, Kelsey Dancause, Norbert Schmitz, & Suzanne King

4. Prenatal maternal stress exposure and autism traits among offspring at age 6.5 years: The 1998 Quebec Ice Storm
   Deborah J. Walder (University of New York), Alexandra I. Sousa-Pires, David P. Laplante, Alain Brunet, & Suzanne King

5. Longitudinal prediction of maternal and child physical health from maternal histories of aggression: Comparison across two Canadian samples
   Caroline E. Temcheff (University of Montreal), Linda S. Pagani, Lisa A. Serbin, Alexa Martin-Storey, Dale M. Stack, Jane Ledingham, & Alex Schwartzman

6. Examining emotional flexibility of mothers with childhood histories of aggression and/or social withdrawal over time: A dynamic systems perspective
   Leah N. Enns (Concordia University), Dale M. Stack, Elana August, Irene Mantis, Lisa A. Serbin, Jane E. Ledingham, & Alex Schwartzman

7. The Intergenerational continuity of self perceptions of childhood aggression, social withdrawal and likeability: Results of a thirty-year longitudinal study
   Alexa Martin-Storey (Concordia University), Lisa Serbin, Dale Stack, Jane Ledingham, & Alex Schwartzman

8. The impact of childhood socioeconomic status on health in the next generation
   Michele Hubert (Concordia University) & Lisa Serbin

9. Disentangling psychobiological mechanisms underlying children’s symptoms of mental health problems: Longitudinal and concurrent associations with diurnal cortisol
   Paula L. Ruttle (Concordia University), Elizabeth A. Shirtcliff, Lisa A. Serbin, Dahlia Ben-Dat Fisher, & Alex E. Schwartzman

10. The development of internalising problems in children: Can we detect a biological vulnerability in infancy?
    Catherine M. Herba (University of Montreal), Sabine J. Roza, Paul Govaert, Joram van Rossum, Albert Hofman, Vincent Jaddoe, Frank C. Verhulst, and Henning Tiemeier

11. Longitudinal ten year follow up outcomes for Better Beginnings, Better Future Primary School Prevention Project
    Kelly Petrunka (Queen’s University) & Ray DeV. Peters

12. Parents' educational involvement and children's educational outcomes
    Cecilia von Otter (Stockholm University)
13. Causal inferences regarding the enduring impacts of alterations in maternal employment status on early childhood aggression
   Youngjo Im (University of Chicago) & Stephen Raudenbush

14. Comparison of four methods for handling missing data in a multilevel model for the estimation of a prevention program’s effect on trajectories of violence
   Stéphane Paquin (University of Montreal), Eric Lacourse, Frank Vitaro, & Richard Tremblay

15. Use of correlation structures to model behavioral trajectories using finite mixture models
   Charles-Édouard Giguère (University of Montreal) & Jean R. Seguin

16. Cross-lagged links among impulsivity, substance use and depressive symptoms from adolescence to early adulthood
   Frédéric Dussault (UQAM), Mara Brendgen, Frank Vitaro, Brigitte Wanner, & Richard E. Tremblay

17. Early adversity predicts externalised problem behaviors in monozygotic twins during childhood
   M.L. Lévesque (University of Montreal), R.E. Tremblay, M. Boivin, M. Brendgen, G. Dionne, D. Pérusse, F. Vitaro, & Booij L

16. Developmental trajectories of neurocognitive functions from early childhood to pre-adolescence
   Mathieu Pilon (University of Montreal), Charles-Édouard Giguère, Sophie Parent, Philip D. Zelazo, Richard E. Tremblay, & Jean R. Séguin

17. Longitudinal study of nightmares and recurrent dreams among children
   Aline Gauchat (University of Montreal), Jean R Séguin, Richard E. Tremblay, & Antonio Zadra

18. Preadolescent sensation seeking moderates the longitudinal association between pubertal stage development and substance use from ages 14 to 17 years in adolescent boys
   N. Castellanos-Ryan (University of Montreal), C.E. Giguère, S. Parent, F. Vitaro, M. Lambert, R.E. Tremblay, & J.R. Séguin

19. Family characteristics and children’s preschool trajectories of disruptive behaviours
   René Carbonneau (University of Montreal), Xuecheng Liu, Michel Boivin, & Richard E. Tremblay

20. Negative affect mediates the relationship between the cortisol awakening response and conduct problems in boys
   Anthony Walsh (Ste-Justine Hospital Research Center)

21. Evolution of the oppositional defiant and conduct disorders across childhood
   Mélanie Lapalme (Sherbrooke University) & Michèle Déry

22. Girls’ conduct disorder and substance use: co-occurrence during adolescence
   Myriam Laventure (Sherbrooke University), Michèle Déry, & Robert Pauzé

23. Personality risk pathways for adolescent school victimisation and the effect of targeted interventions on victimisation over a 12 month period
   Lauren Topper (King’s College), Natalie Castellanos-Ryan, & Patricia Conrod

24. The adventure trial: Efficacy of personality-targeted interventions for substance misuse as delivered by educational professionals
   Maeve O’Leary-Barrett (King’s College), Clare J. Mackie, Natalie Castellanos-Ryan, Nadia Al-Khudhairy, & Patricia J. Conrod

25. Romantic relationships and alcohol and cannabis use in adolescence: a 5 years longitudinal study
   Véronique Rouvès (UQAM) & François Poulin
26. Infant precursors of middle childhood mixed disorganized attachment profiles and their outcome into adolescence  
Gerri Mileva (University of Ottawa), Jean-François Bureau, Ann Easterbrooks, & Karlen Lyons-Ruth

27. The influence of disorganized attachment in the preschool years on later psychosocial development early adversity predicts externalised problem behaviors in monozygotic twins during childhood  
Vanessa Lecompte (UQAM), Michèle Sauvé, Megan McConnell, Katherine Pascuzzo, & Ellen Moss

28. TV viewing leads to subsequent injury risk in hostile persons  
Chung-Yu Chen (University of Pittsburgh), Mark A. Pereira, Darin Erickson, Steven Dearwater, Steven E. Finkel, David R. Jacobs, Karen A. Matthews, Carlos Iribarren, Steven Sidney, & Anthony Fabio

29. Development sequences in the emergence of youth internalizing symptoms and major depressive disorders  
Gretchen Gudmundsen (University of Washington), Isaac Rhew, Ann Vander Stoep, Michaela Vine, & Elizabeth McCauley

30. Peer contagion of anxiety symptoms among preadolescents  
Catherine Serra Poirier (UQAM) & Mara Rosemarie Brendgen

31. Prospective associations between early childhood anxiety symptomatology and middle childhood chronic health problems and infections  
Genevieve Piche (University of Montreal), Caroline Fitzpatrick, & Linda S. Pagani

32. Longitudinal risk of suicidal ideation and behavior is heightened for young  
Ann Vander Stoep (University of Washington)

33. Gene–environment interplay in the link between friends’ and children’s social withdrawal  
Fanny-Alexandra Guimond (UQAM) & Mara Brendgen

34. Social support factors associated with depression and parenting during pregnancy and 1 and 12 months postpartum  
F Tylavsky (University of Tennessee), P Connor, L Murphy, J Graff, & F Palmer

35. Validation of the construct of role-confusion in young-adulthood: Parent report, young-adult report, and observed interaction  
Ingrid Obsuth (Harvard University), Monica Torreiro-Casal, Lydia Ellertsdottir, Elizabeth Miller, Katherine Hennighausen, & Karlen Lyons-Ruth

36. The oak and the willow: The development of social consciousness in men and women  
Julia Penn Shaw (Empire State College)

37. Children’s cognitive abilities and involvement in bullying behaviours: a direct or indirect effect  
Sania Shakoor (King’s College)

38. Duration of breastfeeding and cognitive development  
Luciana Anselmi (Epidemiology in Brazil), Alicia Matijasevich, Luis A. Rohde, Robert Bradley, Cora L. Araújo, Ana M. Menezes, Cesar G Victor, & Fernando C. Barros

39. Occupational aspirations and occupational attainment. A 30-year longitudinal follow-up study  
Cecilia von Otter (Stockholm University)

40. Breadth of organized leisure activities during high school: a longitudinal analysis of its impact on positive emerging adulthood  
Annie Viau (UQAM) & Francois Poulin
41. Why and how: Work motivation and control strategies in family business leaders and their successors
Gaelle Hortop (Concordia University), Carsten Wrosch, & Marylene Gagne
